UniformTM Forms

For almost one hundred years, Uniform Forms from Wolters Kluwer Financial Services has been the industry's most reliable and most comprehensive supplier of property and casualty insurance forms. We offer a full library of both electronic and print forms, as well as a variety of form content integration services. Whether you complete your form by hand, typewriter, on your desktop, or integrate it with your software solution so that it is automatically completed, we can help.

Benefits of Using Uniform Forms

- Access all the forms you need from one source
- Choose the format you want
- Increase compliance levels
- Customize forms
- Save time and money

Overview

With Uniform Forms from Wolters Kluwer Financial Services, there is no need to build and maintain your own library of insurance forms. We offer the most comprehensive collection of standard language forms in the property and casualty insurance industry, and our forms are always up-to-date. We offer comprehensive libraries of ISO, NCCI, AAIS, ACORD, and our own authored forms, including procedural forms that must be processed in conjunction with policy forms to comply with state-specific requirements. Our forms are available in print and electronic formats and can be customized to meet your specific requirements.

Ensure Compliance

Wolters Kluwer Financial Services monitors more than 20,000 different forms authored by bureaus, state agencies, and our own expert staff. We maintain coverage forms, notices, and attachments that the bureaus do not. We have strong relationships with the various form authoring organizations. Our electronic data compositional staff has years of specialized technical knowledge dedicated to composing, maintaining, and converting forms for both printed and electronic media. What's more, our team of compliance experts and insurance forms analysts have extensive industry experience, ensuring a more thorough understanding of the supporting rules and regulations. Our experience helps you to ensure that all forms are up-to-date and compliant.

Save Time and Money

With Uniform Forms, you have access to more than 20,000 pre-composed property and casualty insurance forms in the industry's leading formats. There's no need to build or maintain your own form library. In just two weeks, Uniform Forms will deliver a library of forms that would require months to build, and we will maintain it for you. And, you can have confidence that you are receiving the most current and accurate form, every time. We can also help you quickly convert to automated form completion programs so you realize savings more quickly than if you converted on your own.

Customize Forms

Because Wolters Kluwer Financial Services is a licensed provider of ISO, NCCI, and AAIS, we can offer you both current and previous editions of their policy language. Our highly trained personnel will work individually with you to ensure these products meet your specific needs. We'll even help you customize variations to policy and procedural forms or help you develop an entirely new form. Customizations can be as simple as putting your company name and logo on forms or as complex as redesigning the form.

We can further customize and provide you with additional savings by printing your policy booklets on lightweight paper, significantly reducing your mailing costs and saving you as much as 40% over printing policies on your office laser printer.
